PROFESSIONAL SUMMARY

Third-year B.Tech Artificial Intelligence & Data Science student (ranked 1st in first-year batch, SGPA 8.47/10) who ships working projects end to end: NexStep, a full-stack AI career platform built for Smart India Hackathon 2026, and an OpenAI-powered voice assistant. Strong in Python, OOP and REST API development. Seeking a software development, backend or AI/ML internship.

TECHNICAL SKILLS

Languages: Python, Java, C++, JavaScript

Frameworks & Libraries: FastAPI, React.js, Tailwind CSS, Flutter, sentence-transformers

APIs & Data: REST API design & integration, OpenAI API, Judge0 API, SQLite

Core CS: Data Structures & Algorithms, Object-Oriented Programming, Operating Systems

Tools: Git, GitHub, Vercel, Python Virtual Environments

PROJECTS

NexStep: AI-Verified Career Guidance Platform | *React, Vite, Tailwind CSS, FastAPI, SQLite, sentence-transformers*
[GitHub](#) | [Live Demo](#) | Smart India Hackathon 2026 (team project; sole developer)

- Solely designed and built a full-stack platform (React + FastAPI, 7 core user flows) that compares B.Tech CSE/ECE syllabi against 3 industry roles to pinpoint the exact skills a student is missing.
- Implemented semantic gap analysis using sentence-transformers (all-MiniLM-L6-v2) embeddings to compute an industry-readiness score and rank skill gaps.
- Developed a sandboxed Python code runner with Judge0 API integration that auto-grades submissions against 3 test cases, marking a skill verified only on passing, not on self-reported claims.
- Created sequenced learning milestones with re-check quizzes and an internship matcher over 12 Indian tech internships that explains "why you qualify"; deployed the frontend on Vercel.

JARVIS Voice Assistant | *Python, OpenAI API, Speech Recognition, Text-to-Speech* [GitHub](#)

- Developed a Python voice assistant with wake-word ("Jarvis") detection, speech recognition and text-to-speech for continuous, hands-free interaction.
- Integrated the OpenAI API for AI responses to open-ended queries, plus a news API and commands to open websites and play music.
- Secured API keys with environment variables, .gitignore and a .env.example template.

EDUCATION

Adsul's Technical Campus, Ahilyanagar

2024 – Present

B.Tech in Artificial Intelligence and Data Science | Third Year, Semester V

- **First-Year SGPA:** 8.47/10 (Rank 1 in the combined first-year batch)
- **Coursework:** Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, Web Technologies, Digital Logic Design

Pemraj Sarda College, Ahilyanagar | Higher Secondary Certificate (12th)

2024

Dr. J. Paulbudhe M. V., Ahilyanagar | Secondary School Certificate (10th) | 88%

2022

VIRTUAL EXPERIENCE

Tata GenAI Powered Data Analytics Job Simulation | Tata iQ via Forage

2026

- Completed a virtual job simulation applying GenAI to real-world data analytics scenarios.

LEADERSHIP & ACHIEVEMENTS

- **Branch Treasurer, AI & Data Science:** Manage branch-level finances and coordinate with the department.
- **Academic Excellence:** Awarded an official certificate and trophy for ranking 1st across the combined first-year engineering batch.
